## SEPARATE REFERENCE.

30. 1996-97

Reference was made to a meeting of the Imperial Legislative Council held on the 18th of March 1918. In the course of the final debate on the Indian Engineering Bill, the Hon'ble Mr. Sridharan J. M. Sridharan stated that non-official agencies should be employed in each district or group of districts to collect the statistics of the various industries in the district. He also stated that the Government of India had taken steps to appoint a committee to inquire into the various industries in the district. He also stated that the Government of India had taken steps to appoint a committee to inquire into the various industries in the district. He also stated that the Government of India had taken steps to appoint a committee to inquire into the various industries in the district.

2. In 2016, a somewhat similar question was discussed in the Indian Legislative Council as a resolution recommending that Local Government should be constituted as to the desirability of establishing Advisory Boards composed of non-official persons appointed by the various boards of directors to assist officials in assessing income tax. This was accepted and the result of the reference

to Local Governments and of the consultation, through them, of local opinion, was embodied in the Government of India Resolution No. 1285-F, dated 10th August 1913, which is reproduced as an annexure hereto. It will be seen that the spirit of the resolution was exclusively against the substitution of formal Advisory Boards for the existing system of informal consultation of non-officials.

5. The Government of India have now received the opinions of Local Governments and Administrations on the scheme made by them in accordance with the understanding mentioned above. It is generally pointed out that the arguments put forward in 1914-15 against any extension of the existing system of informally consulting non-official opinion, carry some more weight to-day than they did then. Whereas, under the former Act, the Income-tax Collector whose working arrangements were largely dependent upon reports and information obtained from a body of non-officials, under the present Act, the revenue himself is required to make an account of his assessable income. The necessity for consent to non-official assessment in a general practice has therefore disappeared. The Government of India in its agreement with these facts and has accordingly decided that it is unnecessary to proceed further in the matter.

#### ANNEXURE.

#### COPY OF A RESOLUTION BY THE GOVERNMENT OF INDIA, IN THE FINANCE DEPARTMENT, No. 1285-F., DATED 10th AUGUST 1913.

At a meeting of the Imperial Legislative Council held on the 10th of January 1914, the Hon'ble Mr. James Buchanan moved a Resolution concerning that Local Governments should be consulted as to the desirability of establishing Advisory Boards composed of non-official gentlemen represented by the various heads of districts in most of which is revenue interest has. After some discussion, in the course of which certain private members objected to the policy of consulting by the Hon'ble Member the subject, the Resolution was accepted on the ground that it was advisable to consult Local Governments and through them public opinion as to the practicability and expediency of adopting the proposed method of assessment.

6. The Government of India have now received the views of all Local Governments and Administrations on the subject, and it is found that the proposal has been widely discussed and thoroughly considered by practically all who were consulted. The general conclusion arrived at is that the creation of formal Advisory Boards would not improve the accuracy of assessment and would tend to make the tax more unpopular.

7. The objections advanced by Local Governments and the public bodies and individuals whom they represented, principally the criticism to which the proposal was subjected in the discussion in the Imperial Legislative Council. The most important arguments are summarized below:—

I. It is widely felt that business men would have the strongest objection to the disclosure of their income, and consequently of important information regarding their financial position and methods of business, to a Board composed of their neighbours and possibly including such persons. It is an accepted principle of business that the information of this kind, while necessary for purposes of assessment, should be regarded as absolutely confidential as between the State and the taxpayer, and the maintenance of this principle would be seriously endangered by the proposed system of assessment.

II. The principal utility of the proposed Boards would, by hypothesis, lie in their local and personal knowledge. It would therefore be necessary to appoint a special Board in each area of assessment and the authorities assembled would face the almost difficulty in obtaining true personal knowledge and sense of public responsibility. This difficulty would be especially great in great areas. It is also urged that apart from other considerations the frequent presence of local bodies would enhance the difficulty of assessing a Board which would surround the ordinary work of Government and the assessors.

III. The proposed Advisory Boards would be exposed to conflicting influences, the one of them day to day Government on the one hand and, on the other, pressure implied or expressed as the part of the assessors, with many at whom they would necessarily have some personal or business relations. The question would be most difficult to sustain, and it is generally believed that qualified men would be reluctant to undertake the task.

IV. It is represented that private individuals are often forced by expenses to be unwilling to take the responsibility of legislation which is a serious and public duty, and that officers and representatives of business who may at present be called upon to give the Collector of Income-tax the benefit of their personal knowledge would thus be of diminished utility if identified with membership of an official committee.

V. The introduction of Advisory Boards would tend to weaken the sense of responsibility of the official Income-tax Collector. The duties which he performs are necessarily of an legislative and executive character, and it would not be an altogether unattractive result if he should display a tendency to shirk as much responsibility as possible on the shoulders of the Advisory Boards.

6. These opinions appear to the Government of India to be conclusive and they do not therefore propose to take any further steps in the direction of requiring Local Governments to constitute formal Advisory Boards for the assessment of the tax.

7. The Government of India, however, do not desire to interfere with the existing practice by which non-officials are widely employed in an informal manner in consultation with non-official assessors. It appears from the recent correspondence with Local Governments that in every province the existing system is required to seek information from persons likely to be acquainted with the circumstances of those already on the assessment roll, or who ought to be brought on it. It leaves a class of non-assessors, and leading representatives of the different communities and of commercial and industrial interests, are consulted; and in particular business, military, and village headmen whose class exist in one or two provinces small committees consisting of influential persons, representatives of business and non-officials, are informally associated with Government officials in the work of assessment. The information thus obtained is recorded confidentially by the Revenue estimating officer, and a further feature of the arrangements presently obtaining is that in such case efforts are made to obtain information from a confidential independent source with the object of securing as to the findings as far as possible correct or inaccurate statements. On again, where questions of accuracy are concerned, the assessment may be permitted, it is so desired, to

have his books examined by a non-official committee and even is taking to school for such examinations. gentlemen well qualified by their knowledge of business, their familiarity with systems of accounts and by a reputation for trustworthiness.

3. These appellations are legitimate and suitable and it is understood that they have proved of material assistance in the work of assessing the tax. The money, however, is one with which Provincial Governments are not entitled to deal and it is understood that the Government of India has made their decision indicate their general approval of the method employed. It is suggested that the Government should maintain and develop the existing procedure on practical lines (as noted in the various circumstances of the appellations) with which the assessing officer has to deal.

APPENDIX No. 1A.

Open General Licence for Export of List "C" goods.

A Open General Licence has been issued allowing goods on List "C" of the Prohibited List, including those shown in Appendix No. 1 (above), but not including any goods mentioned in Section D (page 914), to be exported freely as remanufactured from this country in Sweden, Denmark, Holland and Belgium, on the following terms:—

General.—Individual guarantees in support of exports are no longer required, but the goods must be accompanied either (1) to the appropriate Export Association or (2) to the Inter-Allied Trade Commission at Stockholm, who will endorse the Bill of Lading (without any financial liability) on receipt of satisfactory guarantee from the consignee. In order that the method of assignment may be checked, no assignment has been made whereby shippers are to forward the Consignee Shipping Bill or Specifications, whichever are required under Customs regulations to the Export Licence Department, 4, Central Buildings, Westminster, S.W. 1 (in accordance with "Shipping Section"), for approval. Should the consignee already have received a guarantee against re-export in respect of the transaction, it should be forwarded with the Shipping Bill or Specifications, and in the guarantee has previously been sent to this department, the reference number of the relevant papers should be furnished. The Shipping Bill or Specifications will be amended, if necessary, and returned to the consignee stamped "Approved". Upon the production of approved Shipping Bill or Specifications, shippers will be allowed by H.M. Customs without any form of guarantee, subject to the usual Customs formalities. This procedure will not apply to any individual licence which has already been issued, or which may hereafter be issued in special cases.

Should exporters prefer, they may forward to this department a duplicate of the usual advice sent to their shipping agents in form of a Shipping Bill or Specifications. The advice will then be

steamed and returned to them (or to their shipping agents if requested) for production to the Customs with the said Shipping Bill or *Appliquet*. Documents returned to the Shipping Branch of the Export License Department will be dealt with at once and will be despatched to exporters by return post.

**CERTIFICATES.**—The usual certificates from the Danish Associations must be produced to the Customs at the time of shipment, and in such cases the goods may be shipped direct to the consignee. Where goods covered by one certificate are to be shipped in instalments, special arrangements should be made with the Customs at shipment of the first instalment. When the exporter is in a position to declare that the Associations will not issue a certificate, the goods may be shipped by the London Allied Trade Committee at Copenhagen, for amount of the actual consignments. The certificate need not be produced to the Customs in any case where individual license have been or may be issued by the Export License Department in special cases.

**DECLARATIONS.**—All goods may be assigned to the Netherlands Customs Treat for amount of the sub-consignee without the prior production of an R.O.T. certificate, though exporters who actually hold certificates should bring these to the Customs at the time of shipment. The same procedure will apply to certificate-free goods.

**SWITZERLAND.**—All consignable goods (except foodstuffs, see page 516), a list of which is issued as a special arrangement to the "List of Export Prohibited Goods," should be assigned to the Swiss Bureau de Douanes, but the prior production of an R.O.T. certificate to the Customs will not be necessary, even in respect of licenses already issued, which may stipulate for the production of R.O.T. certificates. Any R.O.T. certificate actually in the possession of exporters should, however, be handed to the Customs when the goods to which they relate are shipped. It is, however, still necessary for the export consignee to be stamped in relation to R.O.T. certificates before the goods can be landed even by the Swiss Customs. It is important, therefore, that exporters should, immediately on receipt of an order from Switzerland, advise the Swiss authorities to take the necessary steps to obtain the certificate from the R.O.T.

In cases where the R.O.T. have refused generally or specifically to accept consignments for any reasons, an application for special license should be made to the department. The fact that the R.O.T. have refused to accept consignments should be clearly mentioned on the application form.

Goods not consignable to the R.O.T. may be shipped direct to the producer. Applications for licenses for the above countries should, unless in 14 days to the Export License Department (4, Central Buildings, Westminster, S.W. 1) for all goods on Schedule A, Part D of the Prohibited List. Applications should also be made for the following goods on Schedule C:

- (a) goods to be despatched by parcel post;
- (b) goods intended for the personal use of the consignee;
- (c) applications to export goods in reasonable quantities to private consignees in Norway, Sweden, Denmark, Holland, and Finland will be considered without recourse to the usual Importing Associations or production of guarantee papers (except).

It must be understood that no goods can be shipped under this scheme except such as are for the personal use of the consignee and at his freight.

(d) isolated trade transactions and exporting 25 in value. Exports by parcel post to neutral countries in Europe are allowed without assignment if the usual Importing Association, or, in the case of Denmark guarantee against re-export, provided the value of the parcel does not exceed 25. It should, however, be distinctly understood that this provision is intended to apply to isolated transactions only, and that exporters cannot be allowed to despatch large volumes of goods in the same manner without assignment in the appropriate Import Associations; it will not, however, be necessary for certificates from these Associations to be produced.

In such cases (except as regards (b) and (c) above, for which guarantees are usually required) exporters should state whether the appropriate Importing Association is willing to accept assignment of the goods and if the Association has refused to accept assignment, generally or specifically, that fact should be stated.

**REMARKS.**—An open general license has been issued for all goods not on List A or B, whether exported by freight or parcel post, without restriction as to method of assignment.

Sixth, 16th July 1912.

No. 412.—The following notice relating to appointments to the Indian (Imperial) Forest Service is hereby published for general information.

2. It is proposed to select to probationers for the Indian Forest Service from officers or men serving, or who have served, in India or Manipulation. Applications for appointment should be submitted on a "Personal Detail Form—Officers" in the case of an officer, or on a "Man-Military Employment Form (India)" in the case of other ranks, through the proper channel, to the Secretary, Central Employment and Labour Board, Simla and should reach him not later than (in the case of applications from men serving in India) 31st August 1912, (in the case of applications from men serving in Manipulation) 31st August 1912.

It is advisable that applications be accompanied by a certificate of fitness from a Government Medical Officer.

3. Candidates for appointment must be officers or men who have served in His Majesty's Navy, Military, or Air Force during the war for not less than one year. One year's service, however, is not required in the case of those discharged on account of wounds or other injuries, or sickness arising out of the war.

4. Candidates must have been born on or after the 2nd July 1892 and on or before the 1st July 1908.

5. Every candidate must be a natural-born British subject, and at the time of his birth his father must have been, and must still have remained to be, a British subject.

6. Candidates may be married or unmarried.

Preference will be given to those who have had some University training in natural science or forestry, and whose course of study has been interrupted by military service. An elementary school education is insufficient. Army candidates of education do not require an adequate standard of education.

9. Candidates selected to appear before the Selection Committee referred to in paragraph 10 must appear a Medical Board, which will sit on the same day as the Selection Committee, so in their physical fitness for the previous work of the Indian Forest Service. Particular stress is laid on good vision and hearing. Men discharged owing to ill-health are unlikely to be suitable. Special consideration will be given to candidates who have been wounded, but (1) injury to head, (2) deafness, (3) loss of an eye, (4) loss of a leg above or through the knee, must be regarded as disqualifications.

10. Candidates who appear from their forms of application to be given five rights for appointment, will be interviewed by a Selection Committee, on whose advice the Government of India will act.

11. Selected candidates who have no special qualifications will be placed on probation for a period of two years, during which they must undergo special courses of instruction in forestry at Oxford University, supplemented by theoretical and practical instruction during the vacation under the Director of Indian Forest studies. Special arrangements will be made for those who have already received training at other Universities. Selected candidates with special qualifications, such as a degree or diploma in forestry, may spend a shorter period on probation (see para. 12).

Provision for Exports.—Each selected candidate will be provided with a free first class passage to England.

Selected candidates, who have not already been domiciled, will be domiciled before proceeding to England. They will receive no allowances from the date of domiciliation, until they return to India or find employment, except those specified in paragraph 14.

12. Period of Probation.—Before appointment to the Indian Forest Department a probationer is required—

(a) to have obtained, either before selection as probationer, or within the period of two years' probation, the University degree and the diploma in Forestry at Oxford unless already in possession of the Edinburgh University degree in Forestry or the Cambridge University Forestry diploma;

(b) to have undergone a special course of instruction in Forestry, under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council;

(c) to have passed an examination in Forest Engineering and, if required, in certain other special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law, Indian Working Plans, and an Indian vernacular language;

(d) to have undergone a final competitive examination in Forestry (see Appendix I);

(e) to have satisfied the Secretary of State, in such manner as may be determined by His Majesty's Privy Council.

The Director of Indian Forest Studies instructs probationers in each case as to the order and manner in which they should fulfil these various requirements.

13. Expenses.—The probationers are required to defray all expenses of lodging, board, tuition and maintenance, while at the University, and on practical instruction, with the exception of fees payable to local forest officers in Europe.

14. *Allowances*.—The Secretary of State for India in Council makes payments to each probationer at the rate of Rs. 1,000 annually, not exceeding a total of Rs. 2,000 (besides the fees to local officers mentioned above). These payments are estimated made on the following dates in each year:—

										Rs.
On the 31st December	..	..	..	..	..	..	..	..	..	40
On the 31st March	..	..	..	..	..	..	..	..	..	50
On the 31st June	..	..	..	..	..	..	..	..	..	60

The rates of probationers whose probation does not extend over the full four years will be specially considered.

The grant of the allowances is subject to the following conditions:

- (a) that the progress of the probationer in his studies is satisfactory;
- (b) that the probationer gives security to refund the payments in respect of this advance, as well as such payments, not exceeding Rs. 1,000, as may have been incurred by the Secretary of State on the probationer's behalf in respect of fees to local forest officers, in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 17, or failing to join the Indian Forest Service at the end of the period of probation.

15. *Conduct*.—Every probationer is required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies to such a standard as may be required, failing which, or in the event of serious misconduct, he is liable to have his name removed from the list of probationers.

Probationers are allowed at the end of the period of probation to state their preference in respect to the Province in which they desire to be allotted; but the disposition is made in the several Provinces according to the needs of the public service, on the direction of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

17. *Articles of Agreement*.—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must subscribe for India when required to do so by the Secretary of State. Failure to subscribe at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

18. *Service in India*.—Each probationer on appointment to the Indian Forest Service is provided with a free furnished passage to India.

19. *Salary*.—An Assistant Conservator of Forests draws pay at the rate of Rs. 2,500 a month (equivalent to Rs. 30,000 a year, when the rates are at Rs. 60) from the date of his reporting his arrival in India. But candidates selected under the present regulations whose age is 37, 35, or 33 years will, on appointment, be credited with service of three years, two years, or one year respectively. The years of service so credited will subsequently count for purposes of pay and promotion, but not for leave or pension.

20. *Leave and Pensions*.—Provisions here and pension are governed by the Regulations laid down by the Government of India, and applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government.

## LEAVE AND FURLUGH.

[Note.—The following is a brief summary of the general principles on which leave and furlough leave are granted to officers employed in the India Forest Service by the Secretary of State from the United Kingdom. The rules are subject to alterations from time to time, and are to be found in full in the Handbook sent for the time being of the Civil Service Regulations.]

**Leave.**—Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

1. Subject to this qualification, an officer is entitled to one month's privilege leave after every eleven months of continuous duty. Privilege leave may be accumulated up to three months and may be combined with furlough, special leave, or extraordinary leave without allowance. An officer on privilege leave is entitled to the full pay which he drew when last on duty.

2. Furlough may be taken after eight years' service, reckoned from the date on which an officer first joined the establishment in India, and thereafter after intervals of not less than three years' service. The amount of furlough which may be taken at one time is limited to two years, and the total amount which may be taken during an officer's service is six years. Subject to these limitations the amount of furlough due to an officer at any given time is a period equal to one-fourth of his active service less any furlough enjoyed.

3. Furlough may also be granted on medical certificate up to one year to an officer at any time during his service, and up to the amount due subject to a total of two years; if he has rendered three years' continuous service. In the latter case furlough or medical certificate may be extended, if necessary, up to three years.

4. The allowances payable during furlough, whether granted without or with medical certificate, are half average salary ascertained at the rate of exchange fixed for the time being subject to a maximum for the period of Rs. 50 in the case during the period for which the furlough is "due." After the expiration of the period for which furlough is "due," the allowance is one-quarter of average salary, reckoned at the same rate.

5. Special leave may be granted at any time for not more than six months or furlough allowance calculated as above. A period of three months' special leave combined with three months' privilege leave is not subsequently allowed to officers during the first eight years of their service—before furlough can be taken.

6. **Pay.**—After 10 years' qualifying service an officer is entitled to a pension equal to one-half of his average emoluments at the date of retirement, subject to a maximum of Rs. 4,000 a year after service not exceeding 15 completed years, and of Rs. 5,000 a year after service of and exceeding 15 completed years. Higher pensions are payable in the United Kingdom, subject to certain restrictions, at the rate of exchange from time to time fixed subject to a maximum of Rs. 50 in the case.

Officers who have shown special energy and efficiency during an effective service of three years as Inspector-General of Forests, Chief Conservator or Conservator may, at the discretion of the Government of India, be allowed an additional pension of Rs. 200 a year subject to the condition that the officer must not retire voluntarily before the completion of a total qualifying service of 25 years.

7. Officers who are compelled to retire on medical certificate before completing 10 years' service are entitled to gratuity not exceeding one month's emoluments for each completed year of service up to 10 years, and if their completed service exceeds 10 years to an invalid pension varying from Rs. 1,000 to Rs. 2,000 a year according to length of service.

Taxes, Customs, Public Law, Miscellaneous and Rights.

Bill to be introduced into the Council of the Government of Fort St. George for the purpose of making Laws and Regulations.

Under rule 33 of the rules for the conduct of business at meetings of the Council, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

No. 2 of 1919

### *A Bill to amend the Madras Forest Act, 1882.*

WHEREAS the appointment of a Chief Conservator of Forests for the Presidency of Madras has rendered it expedient to amend the Madras Forest Act, 1882, as amended by the Madras Decentralisation Act, 1914; It is hereby enacted as follows:—

1. This Act may be called the Madras Forest Act Amendment Act, 1919.

2. The Governor in Council may, notwithstanding anything contained in the Madras Forest Act, 1882, delegate to the Chief Conservator of Forests, or to such other officer or authority as the Governor in Council may, from time to time, appoint, any or all of the powers which are conferred on, or may be delegated to, the Board of Revenue or other controlling revenue authority by or under the said Act.

## STATEMENT OF OBJECTS AND REASONS.

The Secretary of State for India has recently sanctioned the creation of the post of Chief Conservator of Forests to exercise control over the Forest Department in place of the Board of Revenue.

2. Under sections 7 and 18 of the Madras Forest Act, 1882, as amended by the Madras Decentralisation Act, 1914, no rights can be granted on behalf of Government in an area which is proposed to be notified, or has been declared to be, a reserved forest, without the previous sanction of the Board of Revenue. Further, under section 35 of the Act, the Government in Council is authorised to delegate any of the powers conferred by sections 19, 20, 22, 27, 53 and 54 of the Act to the Board of Revenue or to such other controlling Revenue authority as the Government may from time to time appoint.

3. When the Chief Conservator exercises control over the Forest Department, the Government proposes to reserve to themselves or to delegate to the Chief Conservator or the Collector the powers mentioned in paragraph 2 above. The Bill is intended to empower Government to carry out this proposal without amending any of the sections of the Madras Forest Act, 1882, as amended by the Madras Decentralisation Act, 1914.
